BEST. SUMMER. EVER.
at CAFE STEAM Summer Camp

CHILDREN AND FAMILY ENRICHMENT AT IDLEWILD PRESENTS SUMMER CAMP 2020

With sessions running from **JUNE 1- JULY 31**

About CAFE STEAM

CAFE STEAM summer camp will offer children, grades K-2 and 3-5, the chance to learn, grow, and explore new modes of thinking and doing. The goal for CAFE STEAM summer program is to boost academic performance during the summer months, build confidence, creativity, mindfulness, resiliency, all while having fun! Children can begin putting the real-world pieces together that they have learned throughout the school year and start applying those principles in a fun and engaging manner. A STEAM approach allows your child to explore different areas of study and provides them with an understanding of how each subject is connected. At the end of the program, children will host their very own fair, where they will showcase all of the elements of the 9 week CAFE STEAM summer program.

Program Hours and Pricing

9am- 3pm- Regular Day $140.00/ week
7am-6pm- Extended Day $175.00/ week

9 weeks Total Camp Cost (Regular Camp Cost)- $1,2609 weeks Total Camp Cost (Extended Day Cost)- $1,575

$25 Application Fee

Camp Sessions

## Weeks 1&2 - Arts (June 1-5) (June 8-12)

Two weeks full of exciting projects designed to let imagination soar. One week campers will focus on painting and printmaking. The other week they'll learn all about sculpture. Students will explore topics from nature to pop art, and everything in between.

Weeks 3&4 - STEM (June 15-19) (June 22-26)

Exciting Science, Technology, Engineering, and Math activities to spark the imagination of our campers! Each day will be packed with awesome mixed media visual arts activities along with engaging STEM certified science and technology experiments! These camps are specifically designed to keep your campers entertained, engaged and having fun all day!

Weeks 5&6- Coding (June 29- July 2) (July 6- 10)

Campers will be introduced to coding that is used in game development and programming. Children will learn the basics of programming as they create animated stories, video games, and interactive artwork. With computer programming becoming the new literacy, young people now have an opportunity to put together multimedia programs without any previous programming knowledge. Students will learn to think creatively, work collaboratively, and reason systematically.

Weeks 7&8- Run of Show(July 13-17) (July 20-24)

Campers will learn skills essential to pull the showcase together. They will engage in finishing touches of their projects, learn and practice presentation skills, and create their very own story boards surrounding their projects. Campers will debrief about all of the things that they've learned, how they feel about the showcase, and what they will take with them from this experience.

Week 9- CAFE STEAM Fair (July 27-31)

Campers will showcase all of the components of Science, Technology, Engineering, Arts, and Math that they have explored throughout the summer. In groups, they will assume roles and execute tasks for their end of CAFE STEAM Summer Camp Production.
